

Great Bend Clinic Expands Through Growing Pains

While a progressive medical facility focuses on bringing the latest and greatest to their patients, it is inevitable to be faced with “growing pains”. Clara Barton Medical Clinic – Great Bend has been a part of the Great Bend community for the past seven years, but as they continued to grow and expand services, they quickly outgrew their existing space. In efforts to provide the necessary square footage and increase efficiency for both recent and upcoming additions, Clara Barton recently opened their new Great Bend clinic location at 906 McKinley Street.

Previously located in Jackson Square, Clara Barton’s Great Bend Clinic was a mere 2,758 square feet, housing just five exam rooms and one procedure room.

“The lack of space made it difficult for more than one provider to operate out of our Jackson Square location at one

time, nor did it allow us the ability to grow,” said Shayla Cook, Clinic Nurse Manager. “Not only does our new space allow us the ability for multiple providers to work out of the facility at one time, but we are now able to offer more services to our patients as well as providing a more comfortable and convenient experience.”

Clara Barton’s new rural health clinic on McKinley Street opened on April 26th and boasts 10,000 square feet, housing 18 exam rooms, and 2 procedure rooms.

“In addition to our family practice providers, our surgeons are also able to see patients out of our new Great Bend Clinic location, offering pre- and post-operative appointments, preventative screenings, and minor procedures,” said Cook. “While we are

not a surgery center, the added space allows our surgeons to perform a variety of procedures that don’t require general anesthesia, such as breast biopsies and vasectomies.”

Additionally, Clara Barton Medical Clinic – Great Bend offers a wide variety of services including acute care, walk-in lab draws, immunizations, DOT physicals, wellness exams, athletic physicals, and much more.

The new family practice clinic is open Monday – Friday, 7:00 AM – 5:00 PM with lunchtime and same-day appointments available. The clinic also offers walk-in lab draws Monday – Friday from 7:30 AM – 5:00 PM. Patients can either continue or establish care with Dr. Kyle Renner, Dr. T. Scott Webb, Kelci Burkey, PA-C, Jenna

relationships between patients and providers.

Because local, quality healthcare is so important, the benefits of the services offered through Clara Barton directly impact members throughout the community. Through partnering with several local organizations, Clara Barton continues to emphasize community involvement and wellbeing. The Great Bend Clinic also has a new outdoor walking trail open for public use, aimed at encouraging long-lasting and sustainable healthy lifestyles.
